

STRENGTHENING SUPPORT FACTSHEET

In order to run effective and impactful programs, investments need to be made behind the scenes to ensure our commitment to positive change informs all aspects of our organisation. We constantly work to make sure that SeeBeyondBorders is operating in the best interests of our beneficiaries and is driven from the local level. Our staff in Cambodia lead the organization, providing technical support to Cambodian teachers, and working alongside international staff.

We continuously review our processes to ensure effective communications, reporting and knowledge management. This ensures that our programs are run as efficiently as possible and that knowledge can be shared effectively across the organization as well as to a wider group of stakeholders on a regular basis.

We also invest in local and international partnerships to strengthen our programs, and share learning. We operate according to the principles of transparency and integrity, alongside existing education systems, to avoid duplication with other NGOs and government schemes, and amplify our impact as much as possible.

“ I really like the format of our reports; they are informative and easy to understand... This makes everyone's lives easier, as you have identified what we need to look at and consider in order to maintain the success and address the challenges. *Kate Shuttleworth, SeeBeyondBorders*

DEVELOP AN EFFECTIVE, INTEGRATED ORGANISATION THAT DELIVERS SUSTAINABLE

AND RELEVANT PROGRAMS SUPPORTED BY LOCAL AND INTERNATIONAL PARTNERS

GOALS & OUTCOMES

Develop an effective, integrated organisation that delivers sustainable and relevant programs supported by local and international partners.

Operate a locally driven, ethical, sustainable and financially viable organisation.

Implement, deliver and review relevant, effective and sustainable programs.

Nurture and develop lasting support through local and international partnerships.

Our Impact: 2015

In 2015, we SeeBeyondBorders agreed a six year strategic plan, which lays out how we will achieve our goals. We have invested resources in communications and relationships to increase our profile and strengthen our engagement with donors. We have held a number of successful events, including our Annual Ball which in 2014 raised \$35,000 for our programs. And we have improved our reporting processes to increase our transparency and accountability.

Strengthening Support is the foundation for our programming. It enables us to effectively address the challenges of **access**, improve **attendance** and invest in **attention** to the *quality* of education. Our integrated approach to providing access to quality learning and education is beginning to see a change. Find out more at www.seebeyondborders.org.
